

## REMINGTON 700 LEFT HAND 300 MAG SUPER BANANNA

Remington 700 left hand 300 Winchester NRA 1000 yard rifle. This rifle was built by Jim Kobe in 1989 equipped as follows:

Davidson aluminum sleeve, single shot follower, McMillian stock with all adjustments, Krieger stainless bbl. trued action, fitted bolt, Jewell trigger, 5" bloop tube, Weaver scope base, iron sight bases. It is painted Corvette yellow and the paint is starting to show it's age with a lot of chips; however the rifle is mechanically perfect and shoots 8" elevation or better at 1000 yards. It is on its 3<sup>rd</sup> bbl. which is a 9 1/2" twist, 30" long and has been fired 654 rounds. I have had good accuracy thru about 1800 rounds on the first 2 Krieger bbls. I'm getting out of the 300 Magnum business and shooting Palma at 1000 yards so all my 300 magnum stuff goes with this as a package deal as follows:

Rifle as described no sights.....	\$1500.00
Extra NEW Krieger 9 1/2 twist 30 cal 30 " long bbl stainless .....	\$ 300.00
500 rounds 1 fired Winchester brass neck turned and primer pockets trued..	\$ 200.00
