Oh my, did it rain. We had constant rain during the entire match. As the targets were visible, we pressed on regardless. Actually the conditions were rather pleasant as there was little wind and the temperature was in the 60's. All shooters had rain garb so as to be able to score and change targets without drowning. Marzitelli tried out a new pistol and was pleasantly surprised.

His first series score evidently was too much for him (overload) as he shot a one on each of the following series. That didn't help the Match Point Average. Ahh well, next match.
