

CMP 3x20 Smallbore Results

July 8, 2020

Hey everyone- thanks for enduring the heat, humidity and the sun glaring into our eyes for the start of the match. With the 91 degree temp and the humidity last night the 'feels like' temp was 97 degrees!! Now add a layer of LONG SLEEVES and heavy pants and jackets! Whew- that was an evening of new challenges!

Despite the 'warm' temperatures, I think there were 4 personal best scores last night: Juliana, Tanner, Megan and Parker! Congrats them as well as Juliana, the overall winner. Also a special mention to Megan for firing her 1st 3P smallbore match!

I will submit these scores to the CMP and they will post them on their website for national results from other ranges through September 8th, 2020. Here is the link: <https://ct.thecmp.org/app/v1/index.php?do=match&task=edit&tab=results&match=20217>

Remember we will be hosting 2 more of these "Home Range Appreciation" matches for air rifle on August 19 (3x20 Juniors Only) and August 20 (60 Standing-- OPEN Match).

Attached are the results- great shooting everyone!
Bill
